March 10th, 2020

Dear SVCS Community:

As of March 10th, there are no new cases of the Coronavirus in Yolo County. In addition, no SVCS student or family member has tested positive for Coronavirus (COVID-19). There are no plans to close SVCS and we ask for everyone to remain calm and not to panic as a result of news and media reports, however, keep observing all the precautions diligently.

The safety of all SVCS's scholars is our top priority, and we take the current outbreak of the Coronavirus very seriously. If your student is experiencing any flu-like symptoms, please keep them home and consult with your family physician.

SVCS is in constant contact with Yolo County Health & Human Services Agency and Washington Unified School District. We continue to monitor the situation and will advise and update you if we see the necessity to close SVCS.

School buses and vans are being thoroughly cleaned, including door handles, seats and other surfaces. Office Staff and yard supervisors have been directed and advised to follow proper cleaning procedures. Janitors are being required to mop, clean classrooms, and to disinfect doors and windows. Teachers remind scholars to wash their hands frequently and advise them to avoid touching their face. As a precautionary measure, we have cancelled all field trips, morning assemblies, awards assemblies, and visitor/volunteer passes.

In the meanwhile, we will continue to practice precautionary measures as it has communicated in previous letters. We recommend that you keep following these precautions for the safety and well-being of your scholars and family members.

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
