

Sacramento Valley Charter School

2399 Sellers Way | West Sacramento, CA 95691 | P: 916.596.6422

March 15th, 2020

Dear SVCS Community,

The threat of the Novel Coronavirus (COVID-19) has disrupted many schools, businesses, and other regular activities. School closures have created a very unusual situation for all of us. In the given circumstances, we will do our best to educate and safeguard your scholar's interests.

Our SVCS teachers are working on various ways to teach your scholar remotely. We hope that you have access to a computer and internet connection in order to receive online instructions from them. If you need a computer, please let our office know as soon as possible. We can loan out a Chromebook for your scholar(s) to work at home.

We have also arranged pre-ordered takeout midday meals from Monday through Friday for SVCS scholars who reside in the area at no cost, or if you live in the Sacramento Area you can visit any of the schools listed in the link below to receive a free takeout meal regardless that your scholar does not attend that school/district.

<https://www.sacbee.com/news/coronavirus/article241200631.html>

Parents, if you wish to participate in this arrangement, please contact the main office before 9:30am. When picking up, one of our SVCS staff will hand over the midday meal between 11:15am-12:30pm to your car. Walk-up students will be given meals but cannot eat them on-campus and must leave school grounds.

Students should stay home and minimize social contact as much as possible.

If you have any other issues during school closure, please call our main office at (916) 596-6422. We will try our best to help you. Our office will remain open from 8:00am-4:00pm Monday through Friday.

We recommend that you keep following these precautions for the safety and well-being of your scholars and family members:

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.

- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.

We thank you for your attention and concern. We will keep you updated.

Sincerely,

Dr. Amrik Singh

Principal
